

Remarks

Petition, fee and good and sufficient reason under 37 CFR1.312.

The amendment of claim 1 is intended to avoid any inadvertent misconstruction of the claim due to the term "the balance being water" which may mistakenly suggest that only the recited components in paragraphs (a) through (g) are to be included in the claim, in contradiction to the open ended term "comprising" in line 1 of the claim which contemplates the presence of ingredients other than those explicitly recited. The term "the balance being" is, therefore, now deleted.

The proposed amended claims require no additional search or examination, and do not affect the patentability of the claims. The proposed amendment was not earlier presented because it was not earlier realized that the claim could be mistakenly misconstrued in the manner explained above.

The issue fee is paid separately herewith.

A petition fee of \$130 under 37 CFR 1.17 is authorized to be charged to our Deposit Account No. 03-2455. The Commissioner is hereby authorized to charge additional fees that may be required by the filing of this paper, or credit any over payment please charge our Deposit Account 03-2455.

Respectfully submitted,

Bernard Lieberman
